

Artiom Ciociu

Artiom Ciociu is the Head of Prime Minister's Delivery Unit, covering digitalization and data-driven governance areas, which forms one of the core pillars of his team's portfolio. Artiom has 15 years of experience in operations' research and in coordination of several data-driven Software as a Service platforms. During the last years he worked as the Prime Minister's advisor, strengthening the government's capacity on project delivery, digitalization and efficient governance.
