Dr. Reem Suwaileh
Researcher, Hamad Bin Khalifa University, Qatar

Bio: *Reem Suwaileh received her B.Sc. (2014), MSc (2018), and PhD (2023) degrees from Computer Science and Engineering Department at Qatar University. Her research interest involves Information Retrieval (IR) and Natural Language Processing (NLP) with an emphasis on social media applications such as real-time summarization and location mention prediction. Her scholarly also focuses on constructing Arabic datasets and test collections. Reem published in top international conferences such as SIGIR, ECIR, LREC, and COLING. She also published in top journals such as IP&M, IJDRR and IRJ, and authored a book chapter at IHDR. Reem serves as a Program Committee member in international conferences including SIGIR, ACL, CIKM, ECIR, LREC, ICTIR, CLEF, ISCRAM and ArabicNLP. She co-organized relevant workshops and computational shared tasks in conjunction with ECIR, CLEF, and ArabicNLP conferences. She also lead the GeoAI-LMR computational challenge organized by ITU in 2022, and 2023.*
