Mr. Ahmed Al-Awah

Mr. Al-Awah is the Chief Technology Officer (CTO) of the United Nations Economic and Social Commission for Western Asia (ESCWA) where he plans, directs, and oversees strategic ICT programs and operations of the organization, assesses opportunities, and risks of emerging technologies, and advises ESCWA clusters and offices on state-of-the-art and future looking information, communication, and data technologies of potential value to organization's core areas of work. Mr. Al-Awah also acts as the Business Transformation Lead for major system projects of significant importance to the institution which typically impact critical programs and operations and oversees the organization's Digital Transformation Strategy.

Previously, Mr. Al-Awah worked as Chief of the IT Strategic Advisory Services section of the United Nations Economic Commission for Africa (ECA) where he provided expert advice on complex systems and data analysis and design for the organization as well as Member States and identified the need for new systems and developed flagship technology initiatives for substantive programs and projects as well as solutions to meet the needs of Member States for integrated planning, policy and data technologies.

Mr. Al-Awah's 19+ year career has spanned many organizations in both the public and private sector including the International Atomic Energy Agency (IAEA) and the private sector in Canada (energy & high-tech industries).
